

FULL BROW TINTING PEN TWO GO

Tinting pens for eyebrows

Natural Brown – tints eyebrows
in a natural brown.

BeautyLash®'s innovative tinting pens have made eyebrow tinting easier than ever before. There's no more need for mixing because the colour is applied consecutively in just two simple steps using the pens. The result lasts for several weeks and is smudge-proof and waterproof.

Dermatologically and ophthalmologically tested.

Contents for at least 10 applications.

Please note: Before your first use, make sure to turn the pencil multiple times.

Application:

1. Prepare + cleanse - If you wear contact lenses, remove them first. Now cleanse your eyebrows with an **oil-free** eye make-up remover. For best results, make sure the hairs are **dry and free of oil**.

2. Apply gel 1 - Open the white pen and twist until the tip of the brush is covered with gel. Now **apply the gel directly to your eyebrows**. All hairs should be completely wetted. **Leave on for 2 minutes**, the gel 1 will be absorbed by the hair.

3. Remove gel 1 - After 2 minutes, remove the remaining gel 1 with a **dry cotton swab or tissue**.

Optional: Protect skin from staining - The gel 2 applied in the next step will stain the skin on contact. To precisely protect your skin from unwanted staining, we recommend using kajal or oil cream. Simply outline the eyebrows. But be careful: The hairs should not come into contact with it, otherwise the colour will not work!

Tip: If the skin should still get some colour unintentionally, we recommend BeautyLash® Tint Remover.

4. Apply gel 2 - Open the blue pen and twist until the tip of the brush is covered with gel. **Apply the gel 2 precisely** with the tip of the brush. The hair should be completely covered with gel from roots to tips. Leave on for one minute.

5. After one minute, remove the gel 2 with a damp cotton pad. The colouring lasts **for several weeks**.

Ingredients:

Gel 1: Aqua, Alcohol denat., Carbomer, Safflower Flower/(Achillea Millefolium/Calendula Officinalis Flower/Leaf/Stem)/(Vaccinium Myrtillus/Vitex Agnus-Castus Fruit)/Rhus Chinensis Gall/(Camellia Sinensis/Nettle Leaf)/Dichroa Febrifuga Root/Grape Seed/(Juniperus Communis Stem/Leaf)/Acacia Catechu Wood/Goldenrod/Hypericum Perforatum Extract, Sodium Hydroxide

Gel 2: Aqua, Silver Nitrate, Ammonium Acryloyldimethyltaurate/VP Copolymer, Ammonia
