

Brow & Lash Foam by RefectoCil

The perfect preparation before any brow or lash service!

The most important step before every brow & lash treatment: a deep and thorough cleaning of the area around the eyes and brows!

A make-up free working area is key to achieve optimal colour intensity for tinting, because clean brows will ensure that the tints can be absorbed properly.

The Brow & Lash Foam effortlessly removes make-up residues, small dirt particles and excess grease. Its creamy and fluffy consistency makes it very easy to apply to brows & lashes before any professional treatment. It contains Aloe Vera, which makes the skin soft and supple. The formulation is pleasantly mild & calming and refreshes the skin without drying it out.

- With moisturizing Aloe Vera
- Moisturizing & nourishing
- Suitable for all skin types
- Suitable for sensitive skin
