# Consent for Brow Lamination/Tint Procedure

*Although every precaution will be made to ensure your safety and well-being before, during and after your tinting application, please be aware of the possible risks below. Please initial:*

- Before any qualified professional can perform this procedure, I understand I must complete this agreement in full. I have agreed that I must lay still for duration of the service. I must NOT open my eyes at any point unless I am directed to. I also understand that I will need to be lying in a reclined position. Any medical conditions that may be aggravated by lying still for a prolonged period of time may mean I will not be able to have the procedure performed on my eyebrows.
- I understand that the treatment is a safe procedure and there is no recovery time for most people.
- I understand that if the tinting agent, developer, or mixture of both accidentally comes into contact with my eyes, my eyes will be flushed with water and medical attention may be required.
- I understand that there may be some residual dark staining left on the skin following the tinting process of either my brows. This will fade and go away within a short time.
- I understand that, while every attempt will be made to provide me with my chosen color, everyone's hair absorbs color differently and my final results may not be the color I initially wanted.
- I understand that over the course of several weeks, the tint will gradually lighten and fade. Re-tinting will be required to keep the new color fresh. Most clients need to re-tint every 3-4 weeks.
- I understand I cannot get my brows wet or apply eye make-up for at least 24 hours after every lash or brow appointment, as it will affect my results.
- I agree that if at any time I am uncomfortable with the brow lamination/tinting process, I will inform the technician and she/he will rectify the problem, including ending the session.
- I understand that Licensed Esthetician or Cosmetologist will perform my brow lamination procedure, she/he is trained professionally and there are no refunds to the service, as after care is my responsibility.
- Note- Eyebrows should be clean, dry, and free of makeup and oil residue. If you attend your appointment without proper preparation, we cannot guarantee lasting or satisfactory results.
- I am aware that using a brow growth serum may affect my brows (Note- if you are using a brow lift serum, we highly suggest to completely stop using 24hrs before your brow service).
- I understand and agree to the care instructions provided by (*insert salon name*) \_\_\_\_\_ for the treatment of brow lamination and or tinting. I realize and accept the consequences of failure to adhere to these instructions may cause the brows to not stay permed.
- I understand that although (*insert salon name*) \_\_\_\_\_ will lift/tint my brows using proper technique, the instruments, tapes, cleaners, eye gel pads, perm solutions, and colour tints used may irritate my eyes or require a physician's care at my own expense.
- I agree that if I experience any ill effects with my brows I will contact the technician that performed this procedure.
- I understand that brow lamination is the process of restructuring the brow hairs to keep them in a desired shape, but it is my responsibility to brush my brows daily to maintain the desired look.

- I understand there are risks associated with having my eyebrows lifted and/or tinted. I further understand that as part of the procedure any eye irritation, discomfort or skin irritation may occur if the tinting or lifting agents come into contact with the skin. I agree that if I experience any of these conditions DURING or AFTER the procedure, I will contact *(insert salon name)* \_\_\_\_\_ and consult a physician at my own expense. I release my technician and *(insert salon name)* \_\_\_\_\_ from all liability associated with this procedure, which is performed with the utmost attention to safety and proper application using tools and products that the brow specialists has been professionally trained to use.

There are a small number of individuals who may have an allergic reaction to tints, hair dyes and other chemical treatments. It is only in rare situations that the reaction can be severe. If you've ever gotten a rash from an allergic reaction to henna or to hair dye containing para-phenylenediamine (PPD), then you may also develop an allergic reaction to brow tints and should not use them. We offer a complimentary patch test service for all clients. Please request an additional patch test if you would like to test your sensitivity, which should be performed 48 hours prior to your appointment. Please note, the patch does not guarantee against an allergic reaction.

**Waive Patch Test**       **Take Patch Test**

- I request that my eyebrows be treated with the brow tinting/ or brow lamination products. I also request and consent to this/these procedure(s) being carried out **without** undergoing a sensitivity patch test. I understand the contents of this form and take full responsibility for my actions, thus absolving all other parties of their responsibilities, if any, associated with the supply of the products and service(s).

**I disagree, and will schedule a complimentary patch test.**

- Brow Lamination is also known as Brow Perms. I understand that perming solution may dry eyebrow hair out, just like any other form of perming. Considering the possibility of dehydration, aftercare for the brows is important & must be followed for best results.

- Photography:** With the understanding that great care will be taken not to reveal identity, I consent to taking of photographs/videos before, during and after treatment/service. These photographs/videos will be the property of *(insert salon name)* \_\_\_\_\_ and or/it's assignees, and may be used for social media, scientific, teaching, publication or promotional purposes.
