## Consent for Eyelash Lift/Tint Procedure

*Although every precaution will be made to ensure your safety and well-being before, during and after your tinting application, please be aware of the possible risks below.*

*Please initial:*

- Before any qualified professional can perform this procedure, I understand I must complete this agreement in full. I have agreed that I must lay still for duration of the service. I must NOT open my eyes at any point unless I am directed to. I also understand that I will need to be lying in a reclined position. Any medical conditions that may be aggravated by lying still for a prolonged period of time may mean I will not be able to have the procedure performed on my eyes and/or eyebrows.
- I understand that the treatment is a safe procedure and there is no recovery time for most people.
- I understand that if the tinting agent, developer, or mixture of both accidentally comes into contact with my eyes, my eyes will be flushed with water and medical attention may be required.
- I understand that there may be some residual dark staining left on the skin following the tinting process of either my lashes, brows or both. This will fade and go away within a short time.
- I understand that, while every attempt will be made to provide me with my chosen color, everyone's hair absorbs color differently and my final results may not be the color I initially wanted.
- I understand that over the course of several weeks, the tint will gradually lighten and fade. Re-tinting will be required to keep the new color fresh. Most clients need to re-tint every 3-4 weeks.
- I understand I cannot get my lashes wet or apply eye make-up for at least 24 hours after every lash or brow appointment, as it will affect my results.
- I agree that if at any time I am uncomfortable with the lash lift or lash tint, I will inform the technician and she/he will rectify the problem, including ending the session.
- I understand to come without contacts in or to remove them prior to the service, so there is no irritation.
- I am aware that a lash lift lifts my natural lashes. Depending on my natural lash length and strength, results may differ. I am also aware the lash tint will tint my natural lashes black, blue/black or natural brown depending on my preference.
- I understand that Licensed Esthetician or Cosmetologist will perform my lash lift procedure, she/he is trained professionally and there are no refunds to the service, as after care is my responsibility.

Note - You must prepare your eye area prior to your arrival. Eyelashes should be clean, dry, and free from mascara, makeup and oil residue . If you attend your appointment without proper preparation, we cannot guarantee lasting or satisfactory results.

I am aware that using a lash growth serum may affect my lashes. (Note- if you are using a lash lift serum, we highly suggest to completely stop using 24hrs before your lash service).

I understand and agree to the care instructions provided by *(insert salon name)*\_\_\_\_\_ for the treatment of curled/lifted and/or tinted lashes. I realize and accept the consequences of failure to adhere to these instructions may cause the lashes to not stay permed.

I understand that although *(insert salon name)* \_\_\_\_\_will curl/lift/tint/ my lashes using proper technique, the instruments, tapes, cleaners, eye gel pads, perm solutions, and colour tints used may irritate my eyes or require a physician's care at my own expense.

I agree that if I experience any ill effects with my lashes I will contact the technician that performed this procedure.

I understand there are risks associated with having my eyelashes lifted/curled and/or tinted. I further understand that as part of the procedure, eye irritation, eye pain, eye itching, eye burning or discomfort, and in rare cases eye infection or blurriness may occur to the skin that may come into contact with the tinting or lifting agents. I agree that if I experience any of these conditions DURING or AFTER the procedure, I will contact *(insert salon name)* and consult a physician at my own expense. I release my technician and *(insert salon name)* from all liability associated with this procedure, which is performed with the utmost attention to safety and proper application using tools and products that the lash specialist has been professionally trained to use.

There are a small number of individuals who may have an allergic reaction to tints, hair dyes and other chemical treatments. It is only in rare situations that the reaction can be severe. If you've ever gotten a rash from an allergic reaction to henna or to hair dye containing para-phenylenediamine (PPD), then you may also develop an allergic reaction to lash or brow tints and should not use them. We offer a complimentary patch test service for all clients. Please request an additional patch test if you would like to test your sensitivity, which should be performed 48 hours prior to your appointment. Please note, the patch does not guarantee against an allergic reaction.

**Waive Patch Test**

**Take Patch Test**

I request that my eyelashes/eyebrows be treated with the lash and brow tinting/ or lash lift products. I also request and consent to this/these procedure(s) being carried out **without** undergoing a sensitivity patch test. I understand the contents of this form and take full responsibility for my actions, thus absolving all other parties of their responsibilities, if any, associated with the supply of the products and service(s).

**I disagree, and will schedule a complimentary patch test.**

Lash Lifts are also known as Lash Perms. I understand that perming solution may dry eyelash hair out, just like any other form of perming. Considering the possibility of dehydration, after care for the lashes is important & must be followed for best results.

**Photography:** With the understanding that great care will be taken not to reveal identity, I consent to taking of photographs/videos before, during and after treatment/service. These photographs/videos will be the property of *(insert salon name)* \_\_\_\_\_ and or/it's assignees, and may be used for social media, scientific, teaching, publication or promotional purposes.
